

SESSION INFO

My standard session fee is \$150, this covers my time to photograph up to five people (or pets!) in a mutually agreed upon location, as well as the editing of all your images. Additional subjects are \$25 each. Stuffed animals are free!

The session fee does not include any prints, digital files, or products.

Image processing times vary throughout the year, however on average your images will be ready for viewing within 2 weeks of your session.

Your images will be presented in a private online gallery from which you can make your selections for ordering. I will notify you via email when the gallery is ready to view, and after that you have seven days to place your order. The gallery will expire after the 7 days, and there will be a \$50 fee to re-post the gallery.

The session fee is due the day of the session and is non-refundable.

CLOTHING CHOICES

Clothing is very important in a photograph. I recommend wearing layers as much as possible to add interest and texture. I also recommend clothing with texture, such as chunky sweaters, clothing with ruffles, buttons, ribbon, embroidery, anything that has a grit to it.

Feel free to bring a couple changes of clothing to the session. If you and/or your child is up for it, we can change as many times as you like. Accessories are my favorite accent to a photograph. Hats, scarves, fun necklaces, funky boots, tights, etc. really can make a photograph more interesting.

Choosing clothing for a family session can be really stressful. Try picking a few colors and sticking to them for the entire family. Jeans are always a good choice and you can pair them with coordinating colors. Sometimes matching too much can look cheesy, so try to keep each person a little unique but staying within the color scheme.

Very Important!! Bring chapstick! No one wants chapped lips in their pictures!

High School Seniors: Please bring clothing that fits your personality and that you feel comfortable in. As I said above, I recommend layering clothing to add interest. Anything with lots of colour and texture photographs really well. I usually ask to stay away from pastels and white, as they don't photograph as well outdoors.

PRINT PRICING

8 wallets - \$20

4x6 - \$20

5x7 - \$20

8x10 - \$40

MOUNTED PRINTS

Larger prints are mounted to a thin board make them sturdier
